## BARNETT THINKS FARMERS' UNION BILLS WILL PASS

Has Been in Washington Urging Passage of Measures.

One Would prevent Gambling in Cotton Futures.

OPPOSE POSTAL SAVINGS BANK.

State Secretary R. L. Barnett, of the Farmers' Union, has returned from Washington, where as a representative from the state he has been lobbying at the present session of congress in the interest of several bills advocated by the members of the Farmers' Union. Mr. Barnett is optimistic over the outlook for the proposed bills, and the sounding of the various congressmen and senators indicates that the measures will pass.

A complete canvass was made, and the lawmakers were instructed on the reasons that the bills were desired, and why opposition was held to some bills. The officers of the Farmers' Union sent out a list of questions, asking the members of the senate and congress their position on certain bills. Over 100 congressmen and senators sent replies that they endorsed the bills advocated by the members of the union, while enough others are indifferent to make the passage of the bills likely. Some of the members of congress said that it was the first time that through any organization they had received information of what kind of legislation the farmers wanted.

One of the strongest bills advocated by the Farmers' Union is the anti-gambling bill, making dealing in future cotton a violation of federal laws. It is but the beginning of a fight against speculation as it is the intention to introduce more bills. The bill against speculation on cotton was referred to the agricultural committee, and thence to a subcommittee. When Mr. Barnett left the hearing granted the members of the union had not taken place.

**Against Postal Bank.**  
A fight is being waged against the postal savings bank bill as passed by the senate. The bill is now in the house and is in the hands of the post-office and post roads committee. Members of the Farmers' Union object to the bill, because the clause with the word "exigencies" is used, so as to give the president the right to use the money in the time of peace as well as war. The committee has granted a hearing to the members of the union.

Restricted immigration laws are being sought also, as the officers of the Farmers' Union are against the laws permitting the entry of Europe coming to America. The officers advocate a financial as well as an educational test for all immigrants landing in America. This bill will be brought up next week.

The central banking system bill will have to withstand the opposition of the Farmers' Union, and the officers now in Washington are directing the fire on it. Mr. Barnett had an interview with the president.

## MRS. SAYLER'S FRIEND COMES TO HER RESCUE

Wateka, Ill., March 19.—Peter West created a sensation by suddenly appearing here today. He said he is ready to spend any part of his millions in defense of Mrs. Sayler.

## Tobacco Sales

A fair amount of tobacco owned by the Planters' Protective association is being received here at the western district warehouse, in charge of Mr. M. M. Tucker, and a good amount is being disposed of every week. This week the total number of sales was 60 hogheads. Leaf tobacco brought from 8 1/2 to 12 1/2 cents while lugs sold from 6 to 7 1/2 cents.

## Speaker Cannon Loses Control of House—Appeal From His Ruling on Point of Order Has a Majority

Mann, of Illinois, and Daltzell, of Pennsylvania, Stand by Old Joe—Others Would Throw Him.

Washington, March 19. (Bulletin.)—Norris' resolution was adopted by a vote of 192 to 153. The allies' victory is complete. The rules committee will be changed and the speaker will have no hand in it. Cannon's resignation is expected.

Washington, March 19. (Special.)—Joe Cannon was lost control of the house of representatives, when his decision was overruled by a majority of 22 on appeal from the chair. This marks a complete victory for the insurgent wing of the Republican party in congress, precluding victory for that element in forthcoming contests for party control in the middle west, leaving the legislative branch of the government, as well as the executive in the hands of the progressive Republicans.

The struggle came, when at noon, after failure to compromise the differences between the regular Republicans and the allied insurgents and Democrats, Speaker Cannon ruled Norris' motion to reorganize the committee on rules out of order. Norris appealed from the chair and Daltzell, of Pennsylvania, moved to lay the appeal on the table. The motion was sustained 164 to 181. Norris then moved the original question to cut off debate and was sustained 182 to 160. His appeal from the ruling of the chair was sustained 182 to 160, and the resolution, which is to elect from the house a committee of 15, nine Republicans and six Democrats, without the speaker, to fix the rules for the house, was before the house.

Cannon was roundly cheered when he appeared to take the speaker's stand. Nearly every member was present. A Cannon supporter said, "I think we'll be beaten. Every proposition offered was humiliating to the speaker. We were not willing to accept any such compromise." After the conference prior to the house convening failed, Tawney and Watson called on Cannon and told the result. Seldom has there been a more dramatic scene in the house than at the conclusion of the speaker's ruling on the Norris points of order. The precedent of which Speaker Cannon made a ruling occurred December 12, 1878. "This identical question arose in the house," said Cannon. "Mr. Roger Mills, of Texas, proposed it as a question of constitutional privilege exactly as it was proposed today. The great Democratic speaker, Samuel Randall, heard the claim of Mr. Mills and decided that the proposition to amend the rules was not a constitutional privilege. There were grave criticisms of rules in those days, but no one thought of appealing from a decision so consistent reason."

At the conclusion of the speaker's ruling Gaines moved to adjourn, but was voted down. Norris then appealed from the decision of the chair, and Daltzell moved to table the ap-

**PEASANT UPRISING.**  
Constantinople, March 19.—Leaders of the peasantry in Thessaly are waging war against the land owners for a division of estates. They have summoned all followers and are under arms at Larissa. The attack will begin tomorrow. The Turkish government notified Greece it will invade Thessaly if it is thought necessary to protect the Turkish subjects living there.

The roll call followed. A truce between opposing elements in the house was not effected until 12:05 noon, while the leaders are holding a meeting. The principal obstacle to a permanent treaty was Cannon's presence on the rules committee. Regulars refused all compromise, eliminating the speaker. President Taft takes a neutral stand. Answers to all requests were stripped of polite verbiage: "This is none of my business." The regulars said they prefer going to defeat to deserting the speaker.

The only concession offered by the regulars was that hint would be given to Cannon after he was elected chairman of the rules committee that his resignation would be accepted if he cared to offer it. The allies declared he would stick to a sure proposition and turned it down. The regulars hoped to gain more time and the insurgents were eager to finish the battle. The insurgents were confident they would dictate terms of capitulation.

The conference between the allies and regulars broke up without reaching any compromise and the fight was again on. The allies refused to recede from the stand taken with reference to the speaker.

The inability of the conferees to arrive at a compromise was caused by Daltzell, of Pennsylvania, and Mann, of Illinois. They insisted that Cannon be made a member of the committee, large or small. All the others would probably agree to eliminate the speaker, but they remained firm. After a conference the insurgents withdrew to the room of Representative Gardner, of Massachusetts.

**Adjourned Last Evening.**  
At 12 minutes before 5 o'clock last night the house of representatives adjourned until noon today after one of the greatest parliamentary struggles in its history. The result is nothing more nor less than a drawn battle. When the final roll call came, 164 Republicans voted to postpone further action on the Norris resolution to eliminate Speaker Cannon from the rules committee, and 150 Democrats and insurgent Republicans voted to continue.

With the regular Republicans voted 14 of the insurgent following of Norris, of Nebraska, who left him and sided with the majority for a postponement. The result, they said, conveyed no significance and meant anything else than that they had deserted the insurgent cause.

## CONN LINN'S ROLL OBJECT BURGLAR HAD IN HIS MIND

Two State Senators Marked For Plunder Upon End of the Session.

Hard Earned Salaries Hid Under Pillows.

SENATOR ARNETT TOUCHED

Louisville, March 19.—(Special.) State Senator Conn Linn and Louis Arnett were robbed in their rooms at the Seelbach last night. Linn lost \$17 in cash and \$1,000 in notes and voucher for his salary as senator. Arnett lost a few dollars in cash. Both men had rolls of money aggregating \$600 under their pillows. The thief gained entrance through a window from the roof of an adjoining store.

**Mr. Bagby Goes to Washington.**  
Mr. Reuben S. Bagby, the youngest son of Judge E. W. Bagby, who has been connected with the R. W. Walker & company drug store, Fifth street and Broadway, for several years, has resigned and will leave next Thursday morning for Kettle Falls, near Spokane, Wash., where he will locate on a large fruit ranch owned by his brother-in-law, Mr. Ray. Mr. Bagby will spend several days in St. Louis and Denver, Col., and reaching Spokane will leave immediately for Kettle Falls, which is 85 miles from that city. That section is noted as a fruit country and Mr. Bagby will probably remain there indefinitely.

**Dr. Davenport Operated On.**  
Dr. Edward Davenport, a popular young physician of Hampton, Ky., was brought to Paducah from his home late yesterday afternoon in a gasoline launch and taken to Riverside hospital, where he was operated on for a severe case of appendicitis. He was accompanied here by Dr. LaRue of Smithland. Today Dr. Davenport was resting as well as could be expected although his condition is very grave and his recovery is doubtful.

## PRETTY WEATHER AID TO BUSINESS

ALL LINES SHOW IMPROVEMENT  
AND RETAIL TRADE TAKES  
ON ACTIVITY.

Business has felt the impetus in all lines given by the pleasant weather as reflected by the handsome increase in the bank clearings. Retail trade has been much better than it was last year in March, and the openings this week of the retail stores were patronized by large crowds of people. The influx of out-of-town customers has been splendid as the early Easter has helped stimulate trade.

Little tobacco was moved this week, except under contract. Ordinarily this season is noted for the heavy marketing of the weed, but this year the major part of the tobacco crop was sold remarkably early and it leaves the farmer free to begin his spring crop. Work on the farm is rushing, too, and the implement dealers and seed dealers are reaping the advantage. A bumper crop is promised for McCracken county as the dry March has afforded the farmer an opportunity to sow early crops.

The pleasant weather has been beneficial to the mechanics as the buildings under construction are being rushed, and much work is planned to be let in a short time. Railroads have had heavy traffic both in the passenger and freight departments.

## Herrin Southern Railway Will be Transferring Freight Into This City Before the Summer is Advanced

Will Run Into Metropolis and Send Consignments to this City and N. C. & St. L. by Transfer Boat.

Reports of progress on the Burlington extension from Herrin, Ill., to Metropolis, indicate that that road will be in operation and that freight will be delivered into Paducah by transfer boats from that line by July 1. The Iron Mountain is building an extension into Herrin. It has no intention, so far as known, of coming down to Metropolis, but it gives the Herrin Southern and connections another feeder.

## Mayfield News

Mayfield, Ky., March 19. (Special.)—The evidence is not yet completed in the Lewis case for murder and the case probably will go to the jury this evening. The lawyers for the defense are Hon. Pete Seay, Robbins & Thomas, Crossland & Crossland, Speight & Dean, Judge Bunk Gardner and Hon. Bertry Hollifield. The lawyers for the prosecution are Judge R. T. Lightfoot, of Paducah; Hon. H. J. Moorman and Commonwealth's Attorney R. L. Smith.

Willie Jones was arrested for hopping a train this morning by Coffee and Galloway.  
Dan Russell was arrested for selling whisky by Policeman Coffee.  
"Screw-driver," one of the chain-gang men, escaped from Foreman Joe Sellars, but was caught by Chief McNutt and Policeman Coffee near the iron bridge.

**Big Revival.**  
A revival at the First Christian church will begin tomorrow, March 20. The Rev. J. J. Castleberry will lead the meetings and he will be assisted by Capt. S. O. Murphy, of Springfield, Tenn., who will direct the music. The meeting will last for one week. Preaching each night at 7:30 o'clock during the week and on Sunday services will be held both morning and evening.

**Locals.**  
Mr. W. E. Norman returned home last night from Paducah.  
Charlie Parham spent yesterday in Paducah.

Mrs. J. Q. Watson returned home last night.  
Mrs. J. T. Galloway returned from Wingo last night, where she has been on a visit.  
Mr. and Mrs. W. K. Wall left last night for Calhoun, Ky. Mr. Wall will locate in Owensboro.

**BAPTISTS MAY WITHDRAW MISSIONS FROM AFRICA.**

Chicago, March 19.—The Rev. Johnston Myers, pastor of Immanuel Baptist church, is soon to leave for the heart of Africa to determine whether Baptists ought to withdraw their missionaries from that continent.

## Senator Daniels Better

Daytona, Fla., March 19.—Senator Daniels is slightly improved today.

## FIRE INSURANCE CASE IN NEW YORK

**PROBE WILL LEAD TO BIGGER DISCLOSURE THAN LIFE INSURANCE SCANDAL.**

New York, March 19.—A big fire insurance investigation has started in New York, and sensational evidence is expected to be brought out. It probably will be more searching than the life insurance investigation.  
C. L. Case gave sensational testimony. He said certain firms of lawyers ordered him to put in a lump bill, and although other firms had itemized their bills, Case destroyed most of the records. Other allegations that he fixed the bills for contributions to campaigns were made by the witness.

**EXTENDING PLANT.**  
Work will begin next week of erecting the addition to the Lack Singletree company on South Third street. George W. Katterjohn has the contract for the new building, and he will rush it to completion.

**THREE SHOCKS.**  
Cleveland, Ohio, March 19.—Three shocks were recorded by the seismograph St. Ignace college this morning. Father Odenbach declares it is Mexico or South America. The vibrations were north and south.

## TAFT AT ALBANY MEETS EARL GREY

**PRESIDENT ACCORDED ROUSING WELCOME AT CAPITAL OF NEW YORK.**

Albany, N. Y., March 19.—President Taft was welcomed to Albany this afternoon and for the first time in history the governor general for Canada, Earl Grey also. President Taft arrived at 2:30. He was met at the station by Governor Hughes and Mayor Jas. B. McEwan. He was escorted to the executive mansion by Troop B, national guard. He visited the Tuberculosis congress and was taken on an auto trip to the Watervliet arsenal. He will have dinner at the University club.

## FROM DRY TOWN

**RYAN CAME AND HE CERTAINLY CUT UP SOME.**

**He Was Fined \$10 Because He Didn't Remember What He Did That Night.**

W. P. Ryan, 30 years old, who came here from Memphis to work, was fined \$10 in police court this morning on a breach of the peace charge. Ryan was alleged to have held up and robbed Ed Baker, colored, on Kentucky avenue between Tenth and Eleventh streets; to have threatened to shoot Mrs. A. L. Redman, 1026 Kentucky avenue, and also Ora Reynolds, next door, last night. Ryan said he had been drinking and remembered nothing of the affairs. Judge Cross said that inasmuch as Ryan had come from a "dry town" he would let him off with a paltry fine.

Other cases were as follows: Breach of peace—Tom Albritton, fined \$20; Annie Tolliver, alias "Gold Tooth Annie," fined \$10; Bud Nance, case left open and recognized for good behavior for the next 12 months under \$300; Ed Brown, fined \$5. Carrying away and destroying the property of another—Robert Hutchinson, continued until next Wednesday. Mayhem—Lyman Tittsworth, continued until next Wednesday.

## SCRATCH FROM SPLINTER CAUSES LOSS OF HIS ARM.

As a result of a scratch from a splinter eight days ago at his home on the Blandville road, Dave Campbell, 54 years old, a colored farmer, has lost his right arm. Campbell was taken to the county sanitarium by Dr. Q. L. Shelton on account of gangrene developing in the arm. This morning Dr. R. E. Hearn, assisted by Drs. Shelton, Lamkin and County Physician Young, amputated the arm just below the elbow. Campbell is resting well and will recover.

## SETTLEMENT IS OUT OF QUESTION

**THIS IS OPINION REGARDING THE STRIKE OF FIREMEN AND ENGINEERS.**

Chicago, March 19.—Another meeting was held by Knapp and Neill today in an effort to get the firemen to concede something. The outlook is not hopeful. One of the commissioners, it is said, probably will be in Washington Monday. This is regarded as auguring ill for a settlement. Negotiations have now been in progress longer than the firemen wished. The date for a walkout is set for Monday, March 21. The present conference must be finished by that date. Leaders are fearful they cannot control the firemen longer.

## FRANCHISES MAY BE ASSESSED AS FAR BACK AS 1906

City Treasurer Walters Receives Opinion From Attorney General.

Will Increase Revenue About \$20,000.

SUPERVISORS WILL NOW MEET.

According to the opinion of Attorney General Breathitt, received today by City Treasurer George Walters, the city may collect from corporations the difference between what they have paid and the state assessment of their franchisees for 1906, 1907, 1908 and 1909, and may collect for omitted assessments back of 1906. With this opinion before it, the board of supervisors probably will meet Monday with representatives of the corporations and settle the question. It is estimated that the city's revenue this year will be increased about \$20,000 by the collections, of which the schools will receive about \$4,000.

The 1910 franchise taxes will not be collected until January 1911; but it is expected that next year some concerns, which have not been assessed by the state board on their assessments, will be reported and their franchise taxes will be collected for many years back, possibly yielding the city \$50,000 additional revenue next year. The Illinois Central check for less than the amount of its total tax, it was learned, was only for its ad valorem tax, and the franchise tax will be paid separately.

Work should have been started on the city tax books before this, but the opinion on the franchise taxes has delayed the board of supervisors in closing their books.

The city treasurer has been sending out notices to taxpayers who are delinquents. He has been doing this only as a favor to them, and all complaints of over-assessment or double assessments, should go to the assessor or board of supervisors, as the treasurer has nothing to do with anything excepting the collection of taxes.

## Fixing the Streets.

Street Inspector Ernest Bell has his force of men at work repairing streets and filling in holes and ruts caused by the heavy rains and snow in the past few months. North Twelfth street has been graveled and today men were spreading gravel on North Fourth street. It was impossible to begin the gravel repairs sooner owing to the gravel pits being submerged in water. The street department intends to place the streets in tip-top shape before long and all efforts are being made to remedy the bad conditions.

## Probably Suicide

That Samuel Bates took his life seems to be well founded, as his sister, Mrs. J. C. Pruitt, of 1029 South Third street, has received letters from the Toler rooming house on Volcano street, St. Louis, confirming the belief that it was suicide. Bates was a well known ship caulker and was found dead in his room with a bullet hole just over his forehead two weeks ago. He was brought to Paducah for burial. Mrs. Pruitt said today that she might possibly go to St. Louis to complete her investigations, but it was doubtful, as letters from St. Louis seemed to cover the case fully.

## Statehood Bill Likely.

Washington, March 19.—It has become known here that the Arizona and New Mexico statehood bill will receive the attention of congress before the close of the present session of congress. Senators Hale and Bailey speaking presumably for the two sides of the senate chamber, agreed on this point, but their agreement did not go to the extent of guaranteeing the passage of the bill.

## MILLIN MAY RUN.

Seriously Considering Race for U. S. Senator.

Nashville, Tenn., March 19.—Governor McMillin, while at Smithville yesterday, was urged by many of his friends to make the race for United States senator. He said he was seriously considering the question. His friends at Smithville are under the impression he will run.

The Jefferson school has eight maple trees growing in the school yard. These trees were planted by the children of the school and Prof. J. T. Ross, the principal of the school, is proud of the possession. Much difficulty has been experienced in getting trees to grow in the school yards.

## THE COMMONWEALTH PAID IN FULL POLICY IN FORCE ONLY 2 MONTHS

The COMMONWEALTH always gives a "square deal" to its policyholders; and those who have dealings with this company are always glad to say a good word for it. Read the following letter: Lexington, Ky., March 8th, 1910.

COMMONWEALTH LIFE INS. CO.,  
Louisville, Ky.

Gentlemen:

I desire to thank you for the promptness with which you have settled the claim under policy No. 91701 on the life of my little girl, March C. Slatten, who died Feb. 28th, 1910, as a result of being burned accidentally, as also you did not receive the proofs of death until March 7th, your Superintendent, Mr. E. H. Tilley, this day paid me the full amount due under the policy.

I also appreciate the liberal provision of the policy, which provides that if death occurs by accident within the first year, the same amount will be paid as the policy had been in force one year, and under this provision you have paid me Eighty-five (\$85) Dollars, when without it your liability would have been only Thirty-six (\$36.00) Dollars, as the policy had been in force less than two months, it having been issued on January 3rd, 1910.

Very truly yours,

574 Maryland.

RUTH E. SLATTEN, Beneficiary.

## CEMETERY FENCE

WAS ON FIRE FROM BLAZING  
GRASS AROUND IT.

Sleeper, Awakened by Smoke From  
Grate, Turns in a Fire  
Alarm.

Two fire alarms were responded to late yesterday afternoon and early last night by the fire department. The first alarm was received that the hedge and telephone poles at the Oak Grove cemetery were on fire. The No. 3 hose company responded to the alarm, and discovered that fire had started in some stubble and spread

to the fence. A long line of hose was laid, and the blaze extinguished before it did damage of any consequence.

### Choking Chimney.

Early last night F. A. Goureaux, who resides over the Orr & Wurth grocery, Twelfth and Jackson streets, built a fire in the grate. The chimney was closed and the smoke filled the room. Goureaux awoke, ran out of the room and gave the alarm. Hose companies Nos. 2 and 4, and truck company No. 4, answered the alarm, and the cause of the smoke was discovered.

## LEADING TEAMS BOTH WIN GAMES

LEAVES PENNANT RACE FOR  
LATER DECISION.

For Once Chess, Checker and Whist  
Team Must Fight for League  
Honors.

### TWO HARD FOUGHT CONTESTS.

Teams	W.	L.	Pct.
C. C. & W. . . . .	9	1	900
High school . . . .	8	2	800
D. A. D. . . . .	7	4	636
Elks . . . . .	7	4	636
L. & P. . . . .	2	8	200
Indians . . . . .	1	9	100

Although the scores are overwhelming, two fast games were played last night in the city basketball league in the tussle for the pennant; but the percentage column stands with no material change. The C. C. and W. team won from the D. A. D.'s by a score of 42 to 8, while the High school team downed the Light and Power team 32 to 9. The climax will be reached next Tuesday night when the two leading teams will meet, and the school lads will have to defeat the Chess team in order to tie for the championship.

Both games were interesting, because the defeat of either leading team would have affected the race. The first game was between the High school and the Light and Power teams. High school started off with the lead early in the game, but the five wires put up a steady uphill fight despite the fact that frequent fouls were made, and at the close of the half the score was 10 to 7. In the second half the students came back strong, and ran up the score, while the L. and P. hooped only one basket.

At the start of the second game the first team promised to set the pace for the Chess and Checks, but before the half was over the red and white boys had begun to play desperately, and had the score 19 to 5 at the close of the half. In the second half it was a walk-over for the winners. The D. A. D.'s, while several of the players were injured, kept trying, but it was useless. Shelton retired from the game, but his teammates kept on although it was hopeless for a victory.

The teams lined up: C. C. and W.—R. Fisher, center; Puryear and Sights, forwards; Singleton and St. John, guards.

D. A. D.—J. Shelton and W. Fisher, center; Elliott and McGinnis, forwards; Terrell, Craig and W. Fisher, guards.

High school—King, center; Brown and Ogilvie, forwards; Craig and Sills, guards.

L. and P.—Johnson, center; Reymann and Hatfield, forwards; Gardner and Simpson, guards. Kelley referee and Lydon umpire.

Field goals were thrown by: R. Fisher, 7; Puryear, 6; Sights, 6; Elliott, 1; Shelton, 1; King, 1; Brown, 5; Sills, 1; Craig, 2; Ogilvie, 4; Reymann, 1; Johnson, 3. Fouls were thrown by: Puryear, 4; Shelton, 5; Sills, 6; Hatfield, 1.

### Baskets.

In practice before the game Hughes, a forward for High school, struck his head and was unable to play in the regular game because he was dazed for several hours.

The D. A. D. team gave flashes of pretty team work last night, but the Chess players lugged in and broke it up.

### Amateur Baseball.

Amateur baseball teams are springing to the front, as the "Calley's" have been organized, and will meet any team of its class on the diamond. The team will practice Sunday, and the players expect to be in shape. The lineup will be: Tom Cathey, catcher; Basil Dicke, pitcher; Tom Miller, first base; Harry Anderson, second base; Tom Clark, third base; James Ford, shortstop; Leslie McBabb, left field; Dossie Sneed, center field; Rufus Griffin, right field.

The "Wellbe's" another amateur team, will hold its regular practice Sunday morning.

## News of Theatres

The Kentucky theater will have at an early date in April the musical extravaganza success, "The Cat and the Fiddle," lyrics and music by Carleton Lee Colby, and a presenting company said to number over 40 prominent extravaganza, pantomime and musical comedy players. "The Cat and the Fiddle" is a funny story, written on a theme taken from the old nursery rhyme of Mother Goose fame.

A week from Monday is the date for "The Traveling Salesman," March 28th. On Monday the scale of prices and also the date of the opening sale for the attraction will be announced.

"A Wyoming Girl" is the attraction at the Kentucky theater this afternoon and night. A western play, with all special scenery and four big vaudeville acts, headed by Le Roy and Hazelton.

## GOOD WORK

DETECTIVE MOORE AND SHERIFF  
HOUSER MAKE ARREST.

Capture Alvin Smart, Fugitive From  
Trigg County—Wanted for  
Murder.

After being at liberty for nearly two years, Alvin Smart, colored, wanted at Cadiz for murder, was arrested last night by Detective T. J. Moore and Sheriff George Houser. He was caught in the county near New Hope, and today Detective Moore left with Smart for Cadiz, where he will be tried.

Smart is alleged to have murdered Bud Porter, colored, in Cadiz in June, 1908, in a quarrel as the result of jealousy over a negro woman. Since then Smart has been avoiding Cadiz and much of his time has been put in wandering from Cairo to Paducah and southern Illinois. Detective Moore has been on his trail for some time, and last night with Sheriff Houser slipped in on Smart while he was in bed and arrested him without resistance.

### PEARY ABANDONS TOUR.

Southern Dates Are Cancelled—  
Jumps to the West.

New York, March 18.—Commander Robert E. Peary has cut short his lecture tour in the south. The refusal of Governor Brown, of Georgia, to introduce him to an Atlanta audience last night, his reference to the commander in an interview as a "faker," and the small crowd that attended the lecture, brought forth an announcement from the civic forum in New York, under whose auspices Peary is lecturing, that his plans have been changed.

The announcement says: "The Civic Forum Lecture Bureau has found it advisable to cancel all of Commander Peary's southern lecture dates, owing to the desire on their part to avoid any evidence of coldness toward Commander Peary."

"The Civic Forum Lecture Bureau, whose object is educational, refuses to allow Commander Peary to be subjected to the liability of a gratuitous insult, such as was given in Atlanta by Governor Brown, of Georgia."

"This affects the lecture at Meridian, Miss., and Birmingham, Ala., only. The one in Des Moines, Iowa, and the western dates, Marion, Ind., and Chicago, will be given as scheduled."

## SPORTSMAN and TELEPHONE

EVERY time a man wants to get away from all connection with the busy world, the telephone is an important helper.

The Local service is useful in arranging his affairs at home and the Long Distance Service of the Bell System helps him to decide where to go and what to take.

By means of his Bell Telephone he can find out whether the fish are biting or the birds are flying, and whether guides or horses can be secured.

After he has been out awhile, if he wants to get word from the city, the nearest Bell Telephone is a friend in need.

The demand is not for a cheap telephone service but for a "comprehensive" and "reliable" telephone service.

### A SPRING LILT.

There's a ripple on the river, where the water is gleaming;  
There's a brown bird singing to its shadow in the stream;  
And the barren woods are blooming, and its people are a-wing,  
For over hill and over dale they hear the coming spring!

Here's a snow of buds a-blow, in the apple tree;  
Overhead a sunny wind, blowing to the sea.  
Who will come a-roaming? Come with me today,  
And, oh, the yearning faces on the broad highway!

There's a ruffle on the water and a drowsy cloud above;  
There's a blue sky spelling out a shower for its love.  
For sweet April is a-weeping and is laughing as she cries,  
And she gathers up a rainbow end and dries her pretty eyes.

Here's the way to Yesterday; take it, an you will,  
April's but a bit ahead, dancing on the hill,  
Who would woe the madcap? Hurry, while you may!  
And, oh, the feet that wander from the broad highway!  
Herman Da Costa, in April Smart Set.

5. Piano solo, "Swan's Song," from Lohengrin—Miss Kate Crumbach.
6. The "Lohengrin" Legend—Mrs. Brooks.
7. Piano duet (Selected from Wagner)—Miss Lula Reed and Miss Mamie O'Brien.

### In Honor of Miss Mahony.

The Philanthropic department of the Woman's club entertained informally in farewell compliment to Miss Agnes Mahony, of New York, on Friday afternoon at the club house. It was a delightful affair. The Executive Board of the club were the only invited guests.

A pleasing feature of the afternoon was a guessing contest. It was a bright original poem, the clever work of Mrs. Harry McElwee, secretary of the department. The blanks were all

to be filled in with the names of the members of the department. It occasioned much enjoyment and made a happy little souvenir for Miss Mahony to keep in remembrance of her co-workers of the winter in Paducah. A pretty Paducah souvenir spoon was, also, presented to Miss Mahony. A delightful salad course was served during the afternoon.

Miss Mahony will leave April 2, for her home and work in New York city. She has been the district investigating secretary for the Philanthropic department at the Settlement House on South Seventh street, and has made a number of warm friends during her stay here. She is a woman of broad culture, has traveled extensively, and has had much experience in both the home and foreign mission fields. Her departure from Paducah is a matter of wide regret.

### St. Patrick Day.

Good St. Patrick of the beautiful Emerald Isle would have been mightily astounded could he have strayed back to earth last Thursday and have seen the celebrations Paducah lined up in his honor in the way of the Spring opening events. Everything was given over to them and they were made almost social functions, and St. Patrick decorations were variously featured. Especially was this the case of the department stores which added orchestras and St. Patrick souvenirs to their other attractions. They were really beautiful affairs with the elaborate decorations and pretty displays of dainty summer goods and shimmering silks. One enterprising firm made an attractive display of evening silks and crepes with gloves, hose and trimmings to harmonize, in a small but brilliantly electric-lighted room, curtained off from the main store. It was a popular place and vied with millinery displays in feminine interest.

The coming week will be quiet socially. It is the round-up of Lent and every one will be busy with Easter preparations. There will be some Easter bazaars given by the girls of some of the churches, who have been busy sewing all the Lenten season on dainty aprons, neckwear and various pretty articles for sale.

### Story by Former Paducah Girl.

The April issue of the Short Story magazine is of special interest to Paducah people as it contains a story by Mrs. William Fineschreiber of Davenport, Iowa, formerly Miss Mae Wallerstein of this city, the daughter of Mr. and Mrs. Herman Wallerstein. The title of the story is "The Mystery of the Kalsort Diamond," and it is said to be extremely clever.

### Seen at the Openings.

"Tying her bonnet under her chin, She tied a young man's heart within."

She is just certain to do it, too, with one of those bewitching motor bonnets that are quite the most captivating things of the recent millinery openings. They are quaint in style and are shown in both straw and silk. An adorable blue one of corded silk was especially fetching.

Then, the poke bonnet is another beguiling style of the summer. Some of these are alluring beyond description, viewed in the showcases. What will they be when donned by the girl of a type just suited to them? For not everyone can wear a "poke bonnet" with becoming grace.

If the charm of the bonnet tied under the chin is sufficient to ensnare the heart of mere man, the price of some of the high-class patrician hats on display might prove an effective antidote for matrimonial intentions on his part. Most men hereabout would have to think long and hard and over-time, before they could adjust their cash balances to a One Hundred dollar hat, or even a mere

trifle of a sixty-five dollar one! So, beware girls!

When in doubt, get a turban, might be excellent advice for this particular season. They are certainly much in evidence, and of every sort and style, from the useful and compact ready-to-wear shirtwaist straw one to the dainty gold gauze Chantecler effect. But there are hats with brims, too, and there are flower-galore, so the outlook is promising for the summer hat to be a thing of beauty in keeping with the dainty lingerie frocks.

### AN EASTER IDYL.

It's just a simple bonnet. With a single rose upon it, And the little face beneath it Is quite serene and still.

But it took a week to buy it, And it takes an hour to tie it, And the good Lord only knows how long 'Twill take to pay the bill.

—Life.

### Kalosophic Club.

The Kalosophic club featured an interesting program at its meeting Friday morning at the Woman's club building as follows:

1. Madame de Sevigne—Miss Ethel Morrow, read by Miss Philip Hughes.
2. Madam Montespan—Miss Katherine Quigley.
3. Madame de Maintenon. The Last of Louis XIV—Miss Lula Reed.

### Current Events—Miss Clara Park.

### To Christen the Kentucky.

Much interest is felt in Washington and Kentucky in the launching of the steamer Kentucky, which will take place Monday, March 21, from the yards of the Maryland Steel company, near Baltimore. Miss Nancy Johnson, daughter of the Hon. Ben Johnson, of Bardonia, has been selected to christen the new craft. A large congressional company, and many of the other friends of the charming young heroine of the day from Washington, will be present at the interesting ceremonies. The invitation to Miss Johnson came from Representative Talbot, of Maryland. Miss Johnson is the daughter of the recently elected state regent of the D. A. R. chapters of Kentucky.

### Hall Calne on America.

Hall Calne in "My Story" says of America:

"I love its people because they are free with a freedom which the rest of the world takes as by stealth, and they claim openly as their right. I love them because they are the most industrious, earnest, active and ingenious people on the earth; because they are the most moral, religious, and above all, the most sober people in the world; because, in spite of all shallow judgments of superficial observers, they are the most childlike in their national character, the easiest to move to laughter, the readiest to

## TODAY SHOWS A COMPLETE AND

## REMARKABLE TRANSFORMATION

The public at large will be interested in the following case which has just come to light. Mrs. Deeg is 57 years old, and has now joined the enthusiastic army of Quaker supporters. Why? Read the following and the reason will be known.

### As She Was Four Weeks Ago.

She would wake up every morning feeling more miserable than when she went to bed the night before; her breath was foul and her tongue coated; she had almost a continuous dull headache; she was nervous, irritable and despondent and melancholy; constipation, bloating, belching and dizziness tormented her; she was losing in weight and her color was becoming a deadly sallow. She had been in the country thinking that pure fresh air and exercise would help her, but it seemed as though she was destined to suffer. She happened to read

about Quaker in the papers and she sent for a treatment of Quaker Extract unbeknown to anybody. After taking it a few days she noticed an improvement, she grew better from day to day, her friends noticed it, too, and all thought it was the country air that was doing it.

### As She Is Today.

She now sleeps and rests well, wakes up refreshed, has no more coating on her tongue. Her breath is pure, her color fresh, appetite good, she has gained three and one-half pounds and she is now happy to inform her friends that it was Quaker Extract and nothing else that really cured her. This testimonial is published with her entire permission. Call at McPherson's drug store, 425 Broadway. The prices of the Quaker remedies are: Quaker Extract \$1.00, Oil of Balm 5 for \$1.00, Salve 10c.

I love the men of America because their bearing toward the women is the finest chivalry I have yet seen anywhere, and I love the women because they can preserve an unquestioned purity with a frank and nat-

ural manner and a fine independence of sex."

### Daily Thought.

Each fiery test of experience that stirs the depths of one's being transforms one by scorching away superficial little follies and vanities, and arousing into consciousness the sterner and profounder elements of character.—Hjalmar Beyeson.

What's the use of an experiment sub-station; as Representative 'Gene' Graves says, tofs of seven reared on a farm could give those professors points on agriculture.

Jupiter has the record of capturing 30 comets. However, comet A-1910 is reported by astronomers to have a salt tail, and it got away; so one classic method of catching things that fly through the air is discredited.

### THE INSURGENTS.

The contest in congress in which the insurgent Republicans and Democrats are united, is primarily over the appointment of the rules committee. At present it is appointed by the speaker upon recommendation of the majority party caucus. Of course, the insurgents say the caucus is dominated by Joe Cannon. If they win they will have to go back to the Republican caucus again, unless the insurgents and Democrats remain together and name the committee. But the main purpose of it is to make Joe Cannon an impossibility in the next race for speaker of the house. That is worth while; but in doing this the insurgents take the risk of pulling down the house, Samson-like, on themselves. It would be well to secure for speaker a more progressive man; but it remains to be seen, whether the insurgents are in sympathy with President Taft's policies, or are employing the insurgent movement to defeat the carrying out of Roosevelt's conservation policy.

### CONSERVATION SITUATION.

The president sizes up the conservation situation, with regard to public lands, about as follows: while the country was growing and the frontier was broad, it was the national policy to give away land for the extension of railroads and the settlement of the country. Now we have left only arid lands to be reclaimed, and timber, fuel and mineral deposits, and water courses. The latter belong to the states and there is a conflict between state and federal authority, which must be settled, if we would prevent their acquisition by a monopoly. In the west this old spirit of surrendering everything to individual enterprise still exists, fostered by corporations, which have their eyes on valuable grants. Out of the custom of executive withdrawal of garrison sites from large tracts thrown open to entry, has grown up the policy of executive withdrawal of lands, containing fuel, timber, ore or water power sites; but the right has never been definitely determined either by a court decision or congressional action, and in California oil companies are proceeding to develop this withdrawn land and purpose to fight the government for the right to do so. Now, the president, asks congress to enact a law, validating all former withdrawals and giving the executive the right to continue the policy.

### IN JUSTICE TO BOTH GENTLEMEN.

A reader might judge from one account of the veto of the experiment sub-station, that either Governor Wilson or Senator Eaton is a liar. It is unfair to both gentlemen.

Senator Wilson specifically promised to approve the bill; but he said that he left the governor under the impression that he would. What the governor probably said to Senator Eaton was that he favors the idea of experiment sub-stations, and undoubtedly he does; but like the other legislators, who fathered appropriation measures, Senator Eaton, knowing the depleted condition of the state treasury, did not take the trouble to provide in his measure, or in a companion measure, means for raising the necessary revenue. Consequently, although the governor favored the project, he probably found it necessary to veto the appropriation; because there is no money with which to meet the obligations imposed. It is a small amount, to be sure; but when the state is dead broke and in debt, it is puerile to talk about small additional expenses. If it can't meet those already incurred, it certainly cannot meet any more.

### TAFT ON THE OHIO RIVER.

Demagogues always advocate measures and policies, which are most pleasing to the ears of those who hear them. They talk about the nobility of labor to laboring men; they talk about confidence and stability to capitalists; they talk about high tariff in New England, and free trade in the south. They would consider it absurd to talk otherwise, and we have become used to their philosophy. Perhaps, that is why we sometimes wonder at President Taft's ways. Even during his campaign for president, he evinced an inclination, not so much to court the favor of particular groups of suffragists, but to convince them that a stand, already taken by him on a given question, was right. In his speech Thursday to the Chicago newspaper club he said the people are fair, when they know the facts. When Gompers attacked him during the campaign on his labor decisions as federal judge and his platform declaration, concerning the injunction, he appeared before an audience of union men in two or three cities, explained his decisions and took issue with Gompers on the injunction question. He convinced them, and they supported him. When he wished to defend the Payne tariff law, he didn't go to New England; he went to Wisconsin and Minnesota, where congressmen and senators belong to the insurgent wing of the Republican party, which is demanding another immediate revision. When he desired to announce his determination to regulate railroads and restrain monopolies, he didn't go to Kansas or Nebraska, or Oklahoma, where trust bustin' is more popular even than broncho bustin'; but he went to New York city, and told it to the heads of the trusts and the railroad magnates. In Kansas and Nebraska he told the people that they should not be unfair to their antagonism to capital. He cannot overcome his judicial habit of waiting until he hears the last word from both sides, before making up his mind, and of requiring the ultimate measure of justice from the one side and equitable acceptance of the judgment on the other.

Mr. Roosevelt possesses a sense of the dramatic fitness of things, which seems entirely lacking in President Taft. If Mr. Roosevelt, for instance, had intended expressing himself in favor of the Ohio river and in disparagement of the Chicago to New Orleans ship canal, we would have been justified in expecting him to come down to some Ohio river port to say it. Not so, Mr. Taft. He went to Chicago to relieve himself of that opinion. There day before yesterday in the presence of Governor Deneen, who is an ardent worker for the deep waterway, he gave expression to these words:

"Whenever an enterprise has been examined by experts, whenever its cost has been reported, and whenever it is made to appear by those who know that there is every probability that the effect of that improvement will assist in respect to railroad rates and will furnish transportation sufficient to justify the investment, I am in favor of making the investment and making it at once. Now, it is unfortunate for me, trying to act as a judge in this country and impartially, that the only enterprise that really meets those requirements is the Ohio river. I believe that the Missouri river from Kansas City to St. Louis, and the Mississippi river from St. Paul to St. Louis, and the Mississippi river from St. Louis to Cairo, are all capable of being put in that condition and answering those requirements, and as they are I am in favor of appropriating for them. Now, as to your fourteen foot waterway from Chicago to the gulf, I am waiting to be convinced. There is in the present bill a provision by which the matter again is to be submitted to engineers. I hope I can select impartial ones and the whole subject can be reconsidered, and then, if the report is favorable, I am sure that congress will act upon it."

### Some Stories Around the Town.

Old time fiddlers of Christian county won over the musicians of Hopkins county in a fiddlers' contest last Saturday night at Crofton. Several prizes were awarded to the violinists, who played all of the old pieces famous in their day. In fact, the fiddlers were boys again, and the manner in which they made the air ring with the melodies showed they had turned back the flight of time. The sawyers from Christian county expressed great glee at the winning of the prize for having the best fiddlers, although the Hopkins county musicians gave them a hard race for the honor. Hart Weeks and Joe Clark were the leaders from Christian county and did

Other artists with the bow were: Jap Sisk, Judge Denton, Charles Morgan, John Wilkerson, F. Oats, O. F. Huthcham, circulation manager of The Evening Sun, who was on a visit to his father, and he said that such tunes as "Arkansas Traveler," "Hot Time in the Old Town Tonight" and "Dixie," which was used as the closing piece with fiddlers from all counties playing, were almost worn out.

## LONG JOURNEY

BY RAILROAD, STEAMBOAT AND SLEIGH.

Joseph E. Hart Will Be Engineer of Steamer on the Yukon River.

On a journey of approximately 8,000 miles from Paducah by rail, water and sleigh, Engineer Joseph E. Hart, of this city, will leave tomorrow evening at 6:10 o'clock for Dawson City, Alaska, to become chief engineer on the steamer "Susie," which plys between Dawson City and St. Michael, U. S. A., on the Yukon river, a distance of 1,601 miles. Mr. Hart today received his contract with the Northern Navigation company, which operates about 50 steamers between these two places. He was second engineer on the "Susie" last year and this year becomes the chief man in the engine room. The trip will require 17 days of continuous traveling, but as Mr. Hart has made the trip three times it will not be as wrecking to his physical condition as before.

The trip will be made via Chicago, Minneapolis and St. Paul and direct to Seattle, Wash., over the Great Northern railroad. At Seattle Mr. Hart will take an ocean liner to Skagway. From Skagway he will go to White Horse, a distance of 100 miles, by rail, passing through the White Pass canyon and viewing the wonderful scenery. At White Horse, the railroad terminal, he will be compelled to travel 450 miles by horse sleigh to Dawson City. This will complete the long journey.

Charles Milligan, of New Albany, Ind., will be second engineer of the "Susie" and has already left for Dawson City. Mr. Hart will join him there. The "Susie" makes about one trip a month between that place and St. Michael, on the St. Michael bay, in the United States. Navigation is suspended during the winter, as the Yukon river freezes to its bottom. Mr. Hart says in summer during July and August the temperature ranges between 30 and 60 degrees, while in the fall and winter it goes sometimes 90 degrees below zero. Mr. Hart said last year the temperature stood at 76 degrees below zero for a period of 16 consecutive days. He is used to this and enjoys the cold blasts. He de-

scribes it as being the most interesting trip on the globe. This will be his third visit there steamboating along the Yukon. He returned to his home in Paducah last October. After reaching Dawson City, Mr. Hart says it will be six weeks before the company's boats are started out. His contract calls for six months' service and Mr. Hart probably will return home the latter part of this year to

Mrs. Ritter of Wilmington Has Terrible Attacks Which She Describes Impressively to Our Readers.

Wilmington, N. C.—"I used to have headaches, and blind dizzy spells and weak cold spells went all over me.

"I had different doctors, who were not able to tell me what was wrong, so I began to take Cardui.

"After taking it regularly, for some time, I got well and am now all right, in good health, better than I have been in for 10 years.

Remember that Cardui is a remedy for women—has been in use by women for nearly a lifetime. It is not an untried chemical combination, but is a vegetable extract, made from herbs, the real curative merit of which has been proven by time.

So you can absolutely rely upon it, just as you rely upon a hot water bottle for pain—because other people have done the testing and you are able to profit by their experience.

If you want further proof, your druggist will tell you about it. Ask him. Get Cardui at his store.

# S.S.S. NATURE'S TONIC

Any system that needs a tonic needs also a blood purifier, for it is the weakened, impure condition of the circulation that is responsible for the run-down state of health. The supreme office and duty of the blood is to furnish nourishment to every portion of the body. The circulatory system, magnificent and wonderful in its construction, supplies the means for the distribution of systemic nutriment to every muscle, nerve, bone, gland, sinew and tissue of the body; and just as long as the blood remains pure and rich each of these members are healthy, strong and normal.

We have only to recognize the importance of pure blood in preserving health, to realize the danger of a weakened circulation. The use of a proper tonic when the system is depleted and run-down will often prevent the development of some serious sickness, because weak systems cannot resist disease, while healthy systems are able to ward it off. Deficient blood nutriment is usually manifested in a general bodily weakness, a tired, worn-out feeling, fickle appetite, poor digestion, etc. Sleep does not sufficiently refresh the body, and the languid feeling frequently makes the ordinary duties of life burdensome.

S. S. S. is Nature's Tonic. It is made entirely of botanical products gathered directly from the heart of Nature's forests. It does not contain a particle of strong, harmful mineral in any form, but is a scientific composition of extracts and juices from herbs, roots and barks. S. S. S. is the greatest of all tonics, because it is the greatest of all blood purifiers. It is not a nerve stimulant, but a medicine that steadily builds up every portion of the system by cleansing and enriching the blood, and in this way supplying an increased amount of nourishment and strength to every portion of the body. S. S. S. rids the system of that tired, worn-out feeling, quiets the over-strained nerves, makes sleep refreshing, corrects any stomach disturbance, promotes good digestion and adds vigor and vim to the entire system.

## THIRTY SENATORS FOR RE-ELECTION

MAY MAKE SOME CHANGES IN UPPER HOUSE.

Those Whose Terms Expire In the Near Future and Will Go Before Their States.

GOSSIP FROM WASHINGTON

Washington, March 19.—(United Press).—Thirty members of the senate are in the last year of their present terms. The conventions or elections of the summer and fall will decide, in almost all the cases, whether the toga wearers shall return to their law practice or disport for six years more in the marble temple of legislation on the hill.

In regard to several of the senators the question has already been settled. The return of Senator Isidor Rayner has been assured by the action of the Maryland legislature. Senator Hermande De Sota Money, the Democratic leader, will retire to his plantation in Mississippi. They take a senatorial situation by the forelock down in Mississippi and in line with the honorable custom John Sharp Williams, statesman, gentleman, scholar, lawyer and planter, was chosen several years ago to succeed Money. Williams was then leader of the Democratic and one of the most popular members of the house. Senator Flint, of California, has said he would not be a candidate for re-election. In a statement issued a short time ago he explained that the great expense of carrying on a campaign under the new California primary law was beyond his means and that, besides, he felt it to be his duty to earn more money than comes in the senate pay envelope to provide for the future of his family.

At the head of the list, alphabetically and otherwise, of those who will take the mark and take the oath next March 4 will be one Senator Aldrich, from Rhode Island. A vagrant rumor went the rounds last summer that Aldrich had decided to retire. When it was brought to his attention he remarked that he hadn't passed out authority to anybody to make such a statement. So he'll come back.

They have been trying to build a fire under Senator Hale in the thirteenth state of Maine, but the senator's friends declare that he'll return again just as he has for thirty years. He stands beside Aldrich at the head of the regular organization in rank, but not in influence. Other members of the old guard likely to return are Lodge, of Massachusetts, and Keen, of New Jersey, while Burrows, of Michigan, and Scott, of West Virginia, say they will be here, too, though they are fighting for the honor in the face of right lively opposition.

Four of the band of progressives in the senate are under fire of the "interests" and, according to widely circulated reports, of the regular publications, but they are fighting on cheerfully with the expectation of putting in six years more at the old stand. La Follette is, of course, an object of especial solicitude and extraordinary efforts are being made to overturn Wisconsin, where he has no friends but the people. Beveridge, the now undisputed Republican leader in Indiana and a strong force in the senate, is up for re-election. Burkett has W. J. Bryan, among other issues, on his hands in Nebraska, and Clapp seeks recognition in Minnesota, where they are up to date and don't have moss on their political doctrines.

In the group of those who must be born again as senators if they are going to help govern the country and advance the light of civilization generally are: Bulkeley, Connecticut; Carter, Montana; Clark, Wyoming; Calhoun, Texas; Daniel, Virginia;

Look at the Companies Behind Your Fire Insurance

A few weeks ago, in a very nearby town, one of the most prominent merchants lost his entire stock of goods by fire. He was fully insured, he thought.

When time for settlement came however, he found the one company in which he had the biggest insurance, was insolvent, BROKE, and the loss wiped the merchant out of business.

So many people scattered all over the American Continent have been cured by Dr. Pierce's Family Medicines that there's scarcely a hamlet where some of these grateful people are not to be easily found—ever ready to say a good word for the medicines which cured them and which very likely may cure you, if similarly afflicted. Look them up. They are walking advertisements for Dr. Pierce's medicines—ever ready to pass the good news along that these medicines cure when many others fail. Little advertised NOW, because their record of 40 years of cures makes great displays of their merits unnecessary. The great American people, pretty generally know of their unequalled record.

### THE POULTRY YARD.

Do you keep your chickens, or do they keep you?

Good warm wheat makes a nice breakfast for the biddies.

Skim-milk is thin looking stuff, but it may be put to good use in the poultry yard.

A little more clean litter on the floors. Keep the fowls hard at work. It is the price of health.

In poultry raising the breed is important, but the man or woman behind the breed is more so.

Chickens that lay around almost anywhere sometimes are merely emulating their betters.

The man who keeps hens is not so much of a philosopher as the man who has the hens keep him.

For hatching purposes take the eggs from the hens that lay best. Build up; never let the standard down.

A shelf, a couple of feet below the roosts, is handy to catch the droppings, and handy to clean. And don't forget to clean it.

Excelsior always seemed to me rather cold stuff to make nests of. Good fine, clean oat straw is about the best of anything that we ever tried.

As a rule, eggs from two-year-old hens give better satisfaction at this time of the year than when from younger stock, and the chicks are more vigorous.

The eggs of hens that did heavy laying during the winter are not so apt to be as strongly fertilized, as eggs from hens that made but a fair showing.

The last egg laid before a hen goes to sitting will often be so small that it will have no yolk at all. There is an old notion that it is bad luck to bring these small eggs in the house.

A nest that suits the turkey hen first-rate may be made by turning a salt barrel on the side. Put straw in the hollow, and a nest egg, and cover the barrel over with brush, if you have it handy.

One of my neighbors says that there's no money in poultry, and that the easiest way to get eggs is to buy them. He says that he keeps chickens to eat the bugs in his orchard; pays 'em a cent a bug.

Is there a place under some old building where you can spade up the earth and give it to the hen to work at? They will dig away hard to find the worms that may be in it. Nothing will do them more good.

When a hen lays now and then, and not soon again, and you can't decide whether she hadn't better quit altogether, I'll tell you what to do: Why, just ax her to, and neither in box nor keg will she ever lay another egg.

Especially in early hatches, care should be taken not to set a hen until she is thoroughly broody. It does not take much experience to know when a hen is really broody. She will be very fussy when approached, and hug close to the nest when the hand is placed under her.

March settings should not contain more than eleven eggs, for when a larger number is given the hen can not sufficiently cover them to impart the necessary warmth. When too many eggs are placed in the nest, those on the outer edge are not apt to get the amount of heat required

to develop the germ and bring forth the chick.

Any system of feeding is expensive if the hens do not lay, and the greater the number of non-producers the greater the cost of every egg produced. Improper feeding or over-feeding may be the cause of a flock yielding only half of what it should. It will be found that the surest course of feeding is to follow as nearly as possible along the line of nature, and this means variety in such a way as to compel exercise.—From March Farm Journal.

### The Servant Girl Disappearing.

During the last 30 years, the demand for servants has doubled, while the supply has increased only by half—in the last decade only by 5 per cent. In 1870 there was one to every 12; even in the recent crisis, when the cities were filled with unemployed, the demand still outran the supply. And yet, during the 30 years past, the number of self-supporting women—that is, the actual labor market—has more than trebled. Forty years ago a woman thrown upon her own resources would tend to select housework for a living; in fact, one woman in two did so select. Thirty years ago only every third woman entered domestic service. Ten years ago only one in four tapped at the kitchen door. The other three applied—where?

Every one knows; at the shop, the factory, the store.—McClure's.

### COMPLETE CHINESE LOAN.

Morgan Man at Paris—French Say English Hold Back.

Paris, March 19.—Henry P. Davidson, of the banking house of Morgan & Co., is expected in Paris tomorrow in connection with the Hankow-Szechuen \$30,000,000 railway loan tangle. The members of the French group do not conceal their impatience over the hitch in the negotiations which they attribute to English "haggling."

The four groups have agreed upon the principle of equal division of money and material, but the English are holding out for what is described here as certain petty advantages. The squabble at the present stage is declared to be made all the more ridiculous by the fact that the Chengtu extension, covered by the proposed quadruple agreement is small bunches of for-get-me-nots.

Representative Sims, of Tennessee, says the franking privilege costs only \$500,000 annually. Judging by most of the matter sent out under it, about \$499,000 is wasted.—Pittsburgh Dispatch.

Gentle Spring always brings along with her  
a lot of bad, sloppy weather, and there will be  
use for a good, sound piece of Shoe leather  
under every foot.

The sole is perhaps the most important part  
of a shoe, and every pair of our best grade of  
shoes is equipped with genuine Oak Tanned  
leather soles.

The leather in the uppers is carefully select-  
ed, and the shoes are all made to our order and  
specifications.

The policy of furnishing nothing but the  
very best has built up our large shoe business.

It is an undisputed fact among Shoe Buy-  
ers that price for grade, for grade, our  
shoes are not excelled anywhere.

The whole story is this: Our shoes are ex-  
clusive and better than the ordinary, but sold  
at no higher prices.

Every customer buys here perfect satisfac-  
tion, as well as shoes.

## TURN DOWN MODEL LICENSE.

Rockefeller Refuses to Receive Let-  
ter From League.

Louisville, Ky., March 1.—George  
R. Washburne, secretary of the Na-  
tional Model License League, today  
received unopened a registered letter  
he sent John D. Rockefeller several  
days ago, asking the financier's moral  
and financial support to the Model  
License League.

Mr. Washburne's letter referred to  
Mr. Rockefeller's contribution of  
\$350,000 to the Anti-Saloon League,  
and after stating that prohibition is  
almost a farce in many states and  
noting the increasing consumption of  
liquors in nearly every part of the  
United States, gives the object of  
the Model License League as the re-  
liefing of the retail liquor dealer of  
the domination of political bosses.

pigeons in 100 consecutive shots, is  
living at Lincoln, Ill. Recently in-  
terviewed, he says: "I have suffered  
a long time with kidney and bladder  
trouble and have used several well  
known kidney medicines all of which  
gave me no relief until I started tak-  
ing Foley's Kidney Pills. Before I  
used Foley's Kidney Pills I was sub-  
jected to severe backache and pains  
in my kidneys with suppression and  
sometimes a cloudy voiding. While  
upon arising in the morning I would  
get dull headaches. Now I have  
taken three bottles of Foley's Kidney  
Pills and feel 100 per cent better. I  
am never bothered with my kidneys

my own self. All this I owe solely to

## CROW IS MUCH ABUSED BIRD

ONE FRIEND IS FOUND IN THE  
GOVERNMENT.

Dr. C. A. Hart Merriam, Chief of  
the Biological Survey, Speaks  
on Subject.

## PROTECTS FARMERS' CROPS

Washington, March 19.—(United  
Press.)—"The crow is a much abused  
bird and it is time that someone  
said a good word for his old black  
coat," remarked Dr. C. Hart Mer-  
riam, chief of the biological survey.

"Instead of being an enemy of the  
farmer, as is generally believed,"  
continued Dr. Merriam, "the crow is  
one of his best friends and the pro-  
tector of his crops. True, during  
corn planting time, the crow's bill is  
turned against the farmer—during  
one month and that month only, is  
he an enemy. But during the other  
eleven months the crow is really  
working overtime for him. It eats  
thousands upon thousands of destruc-  
tive insects and bugs every week,  
and when it comes to feeding its  
young, gives them a diet composed  
almost entirely of worms and insects  
that prey upon the crops.

"Therefore, it makes me righte-  
ously indignant every time I see any  
one trying to kill a crow. These  
trials, however, are not very often  
crowned with success, for the crow  
has become one of the wildest of  
wild creatures as the result of hun-  
dreds of years of persecution and  
misunderstanding.

"The value of many of our birds  
is unfortunately unknown to the  
farmers whom they are striving to  
protect. The oriole, for in-  
stance, is the only bird that will eat  
the fuzzy caterpillars which are so  
destructive to many varieties of trees.  
Were it not for the woodpeckers  
there would be no forests, for they  
go after and keep down the enor-  
mous numbers of worms that attack  
the trees.

"The only bird that I would really  
be glad to see destroyed in this coun-  
try is the English sparrow. He is  
utterly worthless to the farmer or  
the orchard owner; he is dirty, quar-  
relsome and drives away the song  
birds. Just at present the survey is  
striving with all its might and main  
to keep him out of southern Califor-  
nia. So far we have been successful  
in this battle. If the people of the  
cities and villages would only take  
up the crusade against this little pest  
they might easily get rid of him, and  
the beautiful song birds would come  
back. The sparrow is easily trapped  
and easily poisoned; but every time  
an organized effort is made to rid a  
locality of the nuisance, the crusad-  
ers are met with the mistaken sen-  
timentality of a few who know noth-  
ing about the merits of the case, and  
are scared off by the cry of 'Save  
the little birds' that is set up in the  
papers and from the pulpit. The Eng-  
lish sparrow has no more right to  
exist than rats, mice, scorpions,  
tarantulas or any other noxious crea-  
tures that are recognized as enemies  
of our society."

## WEEK IN SOCIETY

Continued From Page Three.)

of Women's clubs, in Cincinnati in  
May. Being so near a neighbor, as  
it were, many will go from Paducah,  
and all the Women's clubs of Ken-  
tucky will be represented.

The following notes on the subject  
are from the Cincinnati Enquirer:

"The preparations for the great bi-  
ennial of the General Federation of  
Woman's clubs, which takes place in  
Cincinnati from May 11 to 19, have  
been moving forward so quietly and  
efficiently that the community at  
large has no idea of the magnitude  
of this tremendous undertaking.  
That between 4,000 and 5,000 wom-  
en are to be present at this meeting  
conveys little idea to the feminine  
mind unaccustomed to figures (of a  
mathematical sort), but when one  
realizes that all of Horticultural hall,  
in the south wing of Music Hall, will  
be needed for the mere machinery of  
the meeting—credentials, bureau of  
information, registration booths and  
other necessary details of organiza-  
tion—it makes the laymen sit up  
and take notice. The decorations for  
Horticultural Hall are to be very  
simple, harmonious and most effec-  
tive. The spaces allotted to each  
state headquarters and the various  
business booths will be marked off  
with hedges of bay trees, producing  
the pleasant effect of a summer gar-  
den. A Rookwood fountain will play  
in the center of the great hall and  
the walls will be decorated in keep-  
ing with this sylvan scheme. The

## \$3.50 Recipe Cures Weak Kidneys, Free

Relieves Urinary and Kidney Troubles,  
Backache, Straining, Swelling, Etc.

Stops Pains in the Bladder, Kidneys and  
Back.

Wouldn't it be nice within a week or  
so to begin to say goodbye forever to  
the scalding, dribbling, straining, or  
too frequent passage of urine; the fore  
head and back-of-the-head aches; the  
stitches and pains in the back; the  
growing muscle weakness; spots before  
the eyes; yellow skin; sluggish bowels;  
swollen eyelids or ankles; leg cramps;  
unnatural short breath; sleeplessness  
and the despondency?

I have a recipe for these troubles  
that you can depend on, and if you  
want to make a quick recovery, you  
ought to write and get a copy of it.  
Many a doctor would charge you \$2.50  
just for writing this prescription, but  
I have it and will be glad to send it to  
you entirely free. Just drop me a line  
like this: Dr. A. E. Robinson, K598  
Lock Building, Detroit, Mich., and I  
will send it by return mail in a plain  
envelope. As you will see when you  
get it, this recipe contains only pure,  
harmless remedies, but it has great  
healing and pain-conquering power.  
It will quickly show its power once  
you use it, so I think you had better  
see what it is without delay. I will  
send you a copy free—you can use it  
and cure yourself at home.

biennial follows the May Festival,  
and many of the delegates are ex-  
pected for at least the final perform-  
ances of this great week of song.  
Thanks to the vastness of Music Hall,  
Cincinnati is enabled to entertain the  
biennial in a more hospitable spirit  
than has been possible at any other  
meeting of the General Federation of  
Woman's clubs. All the accredited  
delegates and alternates will first be  
seated on the main floor and places  
will be found for the other visitors,  
following a certain ratio of repre-  
sentation. This will make a remark-  
able gathering of women, for the  
delegates include some of the most  
distinguished women of the country,  
socially as well as intellectually. The  
last meeting two years ago in St.  
Paul was an overwhelming success  
and that the delegates represent a  
membership of 800,000 women is but  
one of the stupendous facts that Cin-  
cinnatians, not identified with the  
club life, are just beginning to real-  
ize. Mrs. Lawrence Maxwell is  
chairman of the general committee  
of arrangements and her committees  
are so well organized and she has  
been able to interest such capable  
and charming women that the social  
features of the biennial begin to as-  
sume almost as important a part in  
the calendar of the meeting as the  
program of subjects to be discussed.  
Where women of culture and social  
importance are gathered together  
from the four corners of the con-  
tinent, this is a natural result, and al-  
ready the spirit of hospitality and  
enthusiasm is abroad to make the  
biennial of 1910 a model of brilliancy  
usefulness and dignity. In less than  
60 days the event for which work  
has been in progress for 18 months  
—the biennial, greatest of club meet-  
ings—will take place. The nations  
of the earth will be represented, for  
the 800,000 club women all over the  
world will have at least 4,000 repre-  
sentatives in Cincinnati, and the  
world-wide movements of interest to  
humanity will receive an added im-  
petus."

## Grant Letter Found.

Los Angeles, Cal., March 10.—A  
number of interesting documents re-  
covered from an outlaw's deserted  
hut, among them a letter written by  
Gen. U. S. Grant during the siege  
of Vicksburg, was received here to-  
day. The Grant letter was addressed  
to Gen. Parks, and conveyed orders  
relative to the operations in front of  
the Confederate stronghold. The  
other papers are supposed to have  
been stolen from Gen. Manuel Gar-  
cia, of the Mexican army.

That the document had been se-  
creted in the hotel for many years  
were shown by their condition and  
by the further fact that the hut, a  
dilapidated old adobe near Ferris,  
was abandoned when the railroad sup-  
planting the stage line on the run be-  
tween Los Angeles and San Diego.

Berlin, March 18.—Crown Prince  
Frederick William today opened the  
American art exhibition. He came  
with a large staff to the galleries of  
the Royal Academy, where several  
hundred persons distinguished in  
the official, artistic and social life of  
Berlin awaited the prior view by  
royalty before having their own en-  
joyment of the pictures. American  
Ambassador Hill and all the other  
members of the American embassy,  
except Secretary Irwin M. Laughlin,  
who has been called home by the

death of a brother, were present.  
Others attending the opening  
were American Consul-General  
Thackara, Chancellor von Bethmann  
Hollweg, Princess Frederick Leopold  
of Prussia, Ministers Troitz zu Solz,  
Sydow and Delbrueck, Col. Ernest  
von Etzel, formerly military attaché  
at Washington, and Dr. Theodore  
Lewald, German commissioner gen-  
eral to the St. Louis exposition.
